Overview

Challenges and Edge Cases

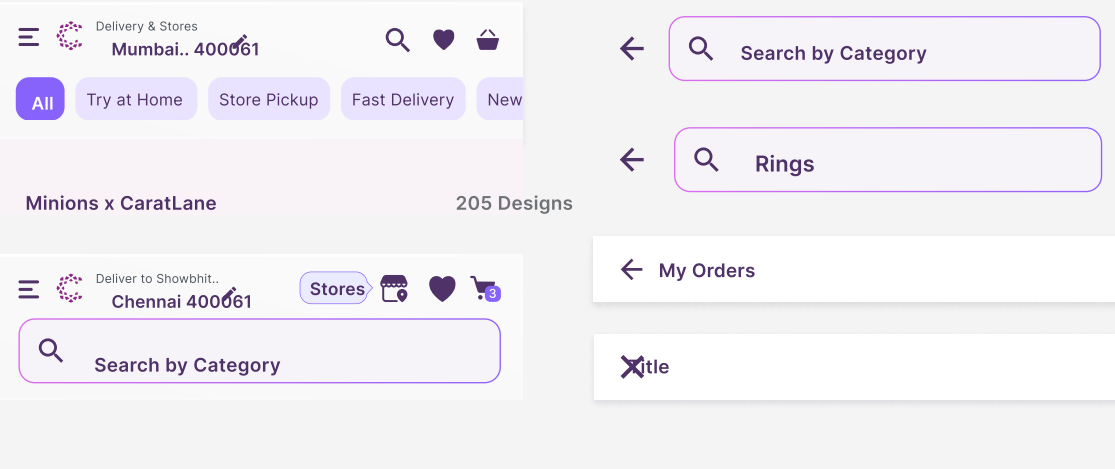

Scalable Grid

CaratLane being a consumer product, users use our website **across different devices** and the scalable/adaptive grid provided the used with consistent experience across the board

Navbar States

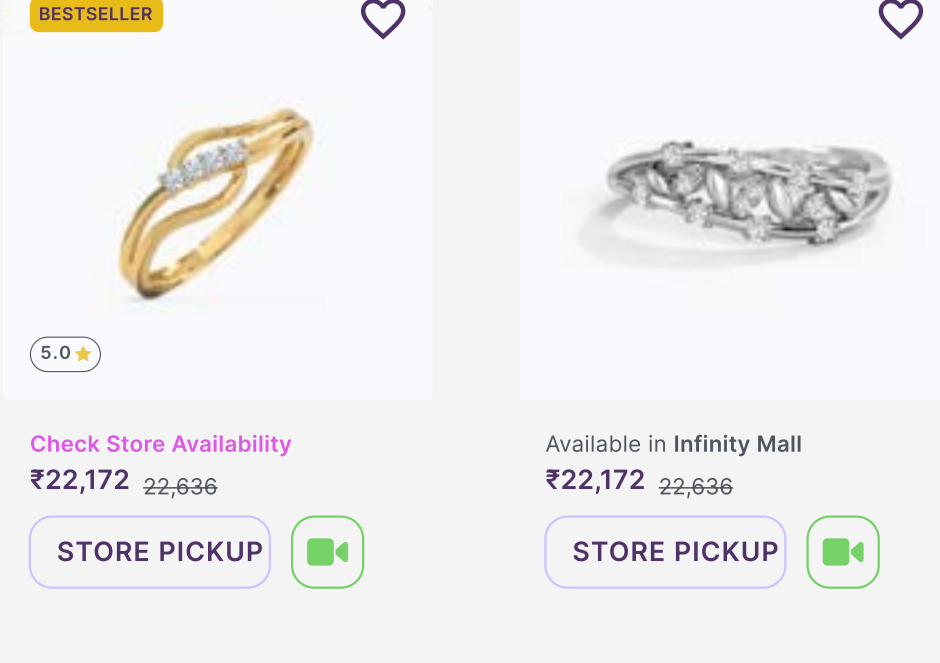

Navbar in the CaratLane Ecosystem is an evolving entity, the visual design was a very important aspect while designing it

Product Tiles

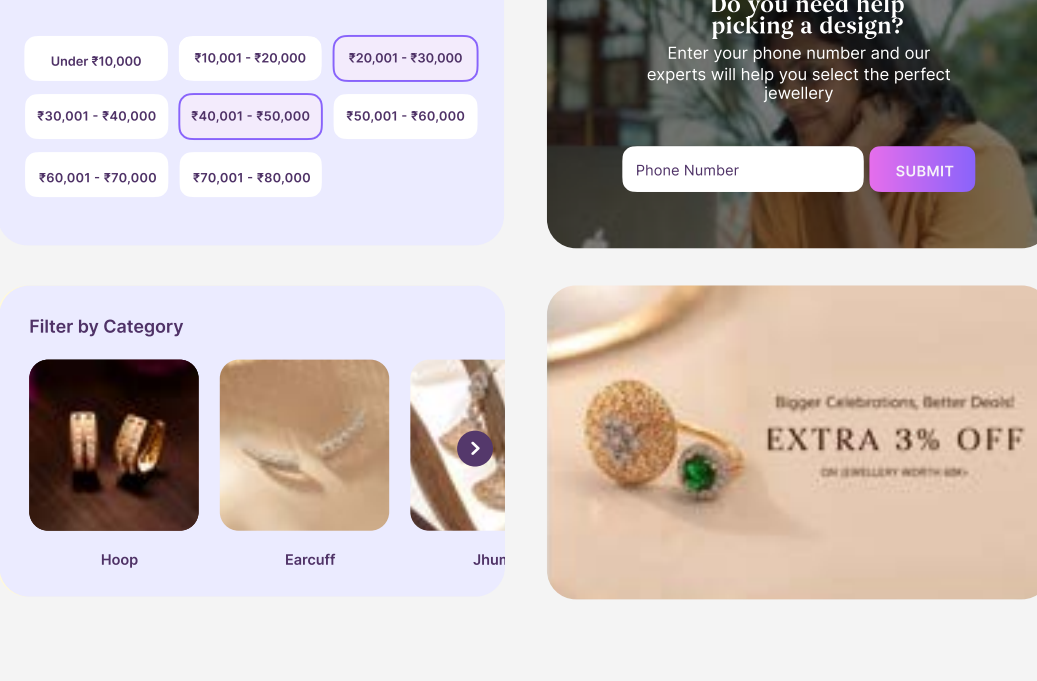

Product Tiles are the main component users look at all the time, we brought out the heroes here-

- Information Architecture
- Product Image

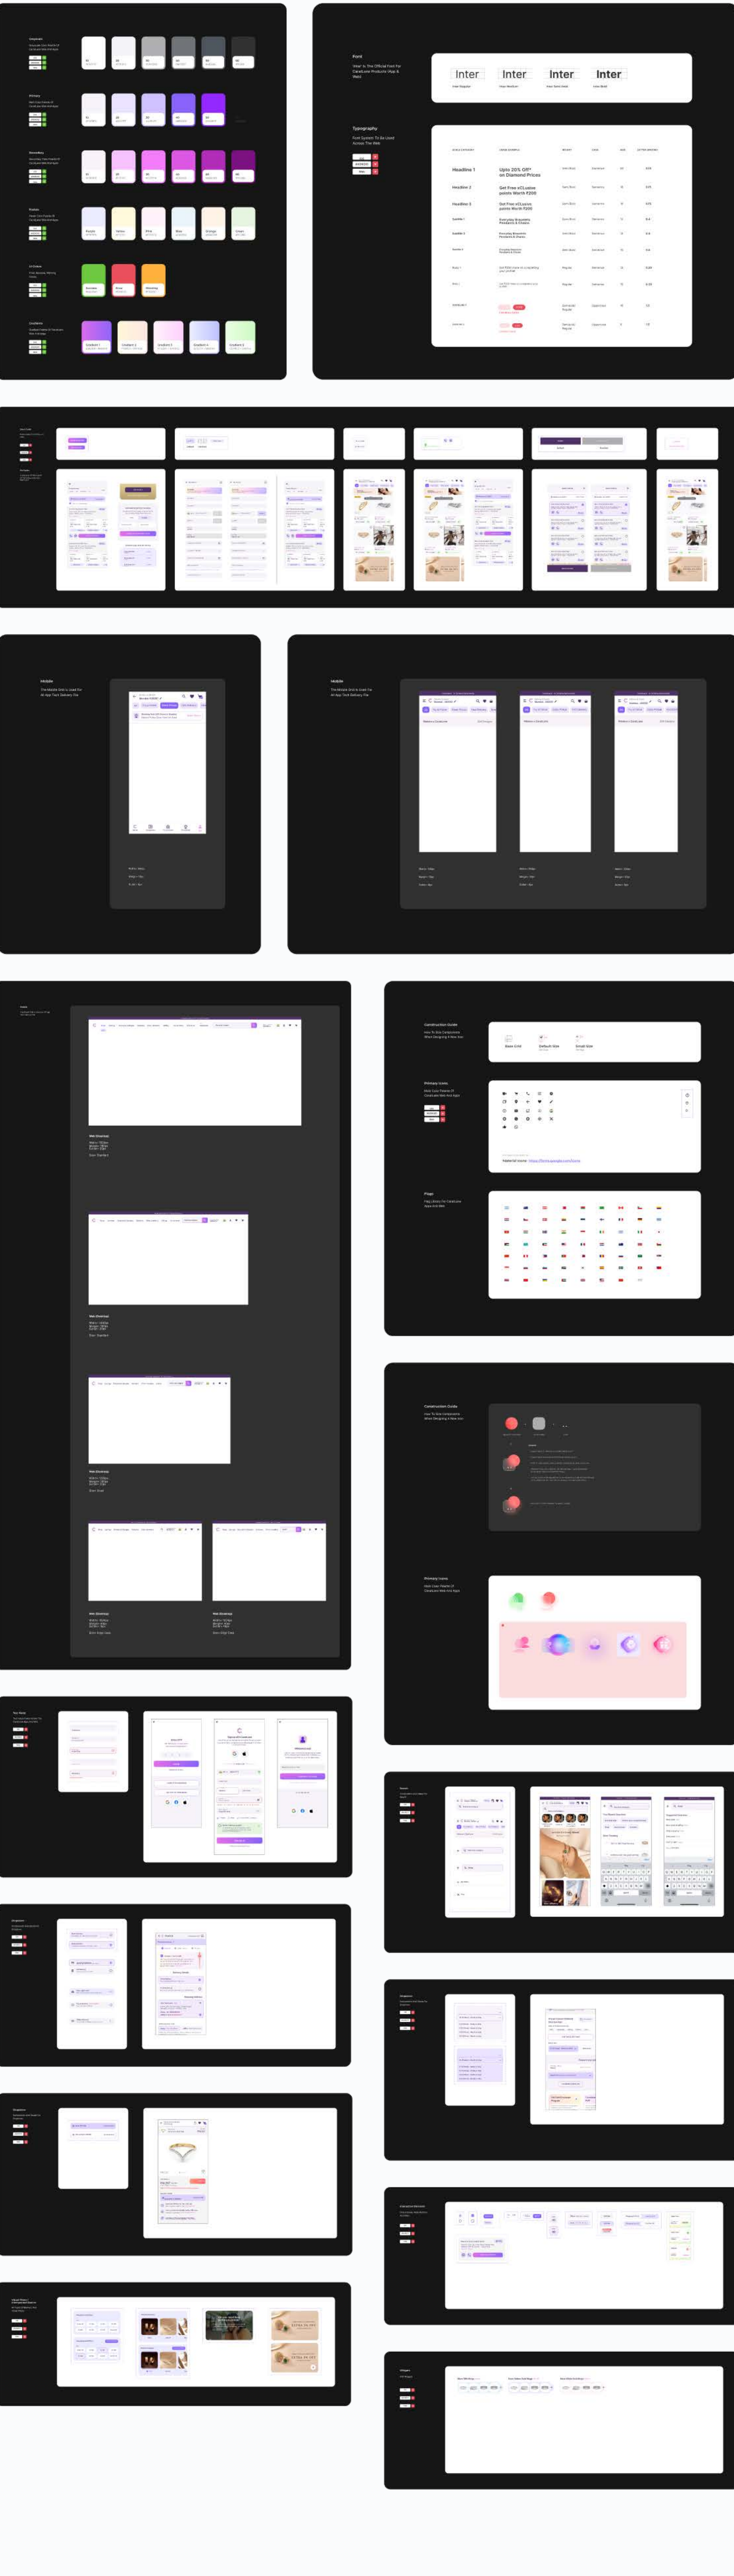

Visual Filters

Use of filters is constantly evolving, we build some new in-line listing page filters, were users could browse visually
