Work Experience

Zepto • Product Designer II

DEC 2024 – CURRENT, BANGALORE

Designed Scheduled Delivery end to end from zero, a net-new capability for a platform built on 10 min delivery, including a pattern to manage overlapping slots across two days. Every scheduled order is 2X AOV of a regular order

Led a revamp of Zepto Ads with new campaign types (ad multiplier, day-parting, PCA expansion) and a clearer creation flow, opening about ₹2.8Cr per month in incremental advertiser revenue.

Leading Jarvis, an AI product built from scratch for ad-specific use cases: AI campaign recommendations and a predicted-performance review surface, with early adoption near 30% and the flow validated by brands like HUL and P&G.

Designed Zeplris [codename: odin-eye], Zepto's first open-source project, end to end with the data-science team, and ran its GTM from product to branding to a social launch that went viral on LinkedIn.

Away • Founding Designer

DEC 2023 – DEC 2024, BANGALORE

Led the design of the Global News Dashboard, streamlining news analysis and accelerating decision-making for sales teams

Designed a system to notify users of contract breaches and exposure, reducing time expenditure and achieving substantial cost savings

Developed solutions enabling senior stakeholders to track, analyze, and gain insights from client conversations

Dassh • Founding Designer

SEP 2022 – DEC 2023, MUMBAI

Conducted design experiments that increased filter engagement by 30% on listing pages, significantly boosting PDP shares and conversions

Redesigned CaratLane’s main listing page, driving 15,000 unique product daily page views

Spearheaded the ‘CL Referral Program’ coordinating with development, content, product, and business teams to attract 80 new users weekly

Developed and strategized CaratLane Loyalty Programs, contributing to 10% of all new online orders
